PROFESSIONAL SUMMARY

Motivated and detail-oriented Frontend Development enthusiast currently pursuing hands-on React.js training at TOPS Technologies. Skilled in HTML5, CSS3, JavaScript (ES6+), responsive web design, and core React.js concepts including components, props, state, hooks, routing, and API integration. Experienced through personal and training projects in building responsive, user-focused interfaces and reusable UI components. Seeking an entry-level Frontend Developer / React.js Developer opportunity to contribute, learn from experienced teams, and grow through real-world development.

EDUCATION

B.Voc (Hardware & Networking)

Surendranagar University | 2022 – 2026

Undergraduate vocational program with a technical foundation in hardware, networking, and computing concepts.

12th / HSC

Shree Darshan School, Surendranagar | 2022

10th / SSC

Shree Darshan School, Surendranagar | 2020

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design

React.js: Components, Props, State, Hooks (useState, useEffect), React Router, API Integration

Web Development: DOM Manipulation, REST API Integration, JSON

Tools: Git, GitHub, VS Code, npm

Core Strengths: Problem Solving, Clean Code, Reusable Components, Responsive UI, Continuous Learning

Languages: English, Hindi, Gujarati

EXPERIENCE & TRAINING

React.js Trainee — TOPS Technologies

Currently Pursuing

- Following structured training in React.js, JavaScript, components, hooks, state management, routing, and API integration.
- Applying frontend concepts through hands-on assignments, practice exercises, and personal projects.
- Strengthening HTML5, CSS3, JavaScript, responsive design, Git, and modern frontend development practices.
- Developing practical projects to build job-ready frontend development skills.

Professional Experience: Fresher / No prior full-time professional experience.

PROJECTS

ResumeIQ — AI-Powered Resume Platform

Personal Project | Status: In Progress

- Developing a modern resume-focused web application with a responsive, user-friendly interface.
- Building the frontend with React.js and reusable components to keep the interface organized and maintainable.
- Designing structured user flows and resume-related features with emphasis on usability and responsive layouts.
- Exploring AI-assisted functionality as part of the project's feature set.
- Continuously refining the UI, responsiveness, and overall user experience as development progresses.

Movie Watch List

Personal Frontend Project

- Developed an interactive movie watch-list interface using HTML, CSS, JavaScript, and React.js concepts.
- Implemented dynamic add/remove functionality for managing a personalized movie list.
- Applied component-based development practices where applicable to keep UI elements modular.
- Focused on responsive design, intuitive navigation, and a clean user experience.

CERTIFICATIONS & TRAINING

- React.js Training — TOPS Technologies | Currently Pursuing

No completed professional certifications claimed.

KEY HIGHLIGHTS

- Hands-on experience building frontend projects while learning React.js.
- Currently developing ResumeIQ as an ongoing personal project.
- Strong focus on practical learning through project-based development.
- Continuously improving JavaScript and React.js skills through practice and implementation.

PROFESSIONAL STRENGTHS

Quick Learner | Problem Solving | Adaptability | Team Collaboration

Attention to Detail | Continuous Learning | Communication
